About 2 o'clock it became evident that some portion of our army must give away, as the rebels were constantly Our troops in front of the bridge now fell back to within three and half miles of Turkey Island, where the fight was shortly afterwards renewed, and continued with the greatest determination on both sides.

The loss on Monday was heavy on both sides. During the day all the cattle and the greater portion of the transportation, had safely crossed Turkey Island Bridge. Some of the rear wagons had to be abandoned, and fired, to make room for the passage of artillery. The fight was renewed early on Tuesday morning by the rebels. They evidently in-

tended to crush our army. It lasted about three hours, resulting in considerable loss the next? to both sides. The enemy then retired, leaving the field to our troops.

HEADQUARTERS ARMY OF THE POTOMAC, ? TINKET ISLAND, July 2. Gen. Goolin, of the 64th Pennsylvania regiment, was killed; Capt. Camblass, of the 6th regular cavalry, was killed; Col. Pratt, of the 31st New York, was wounded

in face. The army is now encamped on high rolling ground on the banks of the James river 15 miles from Richmond. The transports are already unloading supplies at the wharves. The Commanding General feels confident of successfully meeting any attack the enemy can make upon him in his present position.

The reinforcements received from Beauregard and Jackson gave them a force double that of the army of the Potomac, and many of the prisoners taken during the battles belong to Beauregard's army.

CAPE RACE, July 5.

The steamer Hibernian, from Liverpool, 7th, via Londonderry, 28th, passed here this morning.

Breadstuffs quiet and steady. Provisions very dull. Consols for money 93 @93;. American seturities dull and a downward

endency. It is asserted that Napoleon has resolved to send sufficient troops to Mexico, to force a way to the Capital, against all obstacles. Admiral Gravierre will immediately take mmand of a strong concentration of French war vessels in American waters. Which concentration, the Patrie says, is justified by what arises out of the American war and Mexican affairs.

The London Herald argues intervention in American affairs.

CAIRO, July 6. The ram Monarch brings news from Vicksburg of the 28th. On Thursday Port-er's fleet commenced shelling the upper battery below town; this continued all day without any result. It was renewed on Friday and in the afternoon it was directed on the town, over which shells were plainly seen to burst; this continued until four when it crased. During the bombardment the rebel batteries replied feebly; their ûring was inaccurate. Half an hour after cessation of the bombardment the rebel water issued whose editors would not take the replied until the battery ceased firing. At 8 P. M. we opened fire from our entire fleet upon the town, which continued an hour. Next morning at four o'clock bombardment was renewed, during which eight of Farra-gut's vessels passed the batteries without serious damage. The city must have been greatly damaged; conflagrations were seen in numerous places. We are informed upon indisputable authority that five thousand negroes have been ordered by General But-ler to work on the canal across the bend in which Vicksburg or its remains are now situated. with whisky and gunpowder. FORTRESS MONROE, July 3.

This morning the Rellie Baker arrived ing, having left there at five o'clock. She brings 25 rebel prisoners and a few wound-ed. The most terrible fighting took place on Tuesday last with a most brilliant sucaction and the rebel prisoners admit the loss of at least 10,000 that day. Our artillery was most successfully handled. Nearly all day the rebels have done but very little execution with theirs. Our loss was very small compared with that of the rebels. As fast as the rebel forces were cut to pieces other fresh troops were immediately marahed forward to fill their places. They seemed to disregard the lives of their men and held them under the hottest fire of our artillery. The enemy have been driven back in every fight for the last three days. Our troops are in fine spirits and never so anxious to fight as now. The steamer Vanderbilt and Arrow Smith have arrived with

Washington, July 5. Dispatches have been received from Gen. McClellan, dated as late as one o'clock A. M., on the 4th. The following is their substance, contiting details not proper for present publication. There had been no fighting since Tuesday night, when the enemy were repulsed with great slaughter.

The army moved to the position now occupied because it afforded superior advantage for the co-operation of the gunboats, of which seventeen are now in the river protectin the flank of our army. Statements of the casualties in the severe battles of the eight days cannot yet be furnished. Our forces were not beaten in any conflict nor could they be driven from the field by the vision, at the onset, was overwhelmed and 25 pieces foll into the bands of the enemy.

A former employee on the Mobile and Ohio Railroad, from Mobile via Tupell's, says there are two gunboats and one ram cations around Mobile, which were commenced a month ago, are completed.

The inhabitants are sanguine and think

The inhabitants are sanguine and think that Mobile cannot be taken.

Our informant eaps that Braggis in command at Tupell's, with between 40,000 and 50,000 men. Breckinridge had left with 30,000 men. All the troops are short of clothing and provisions. They have bacontwice each week, but neither coffee nor salt.

The rebels say that the time has come to retake Corinth, and the general impression among the rebels is that a majority of our troops have gone East. It is the unantmous testimony of the scouts, deserters and spice that no rebel troops, except cavalry, have gone eastward.

SAN FRANCISCO, July 1. The steamer Pacific brings news from British Columbia to the 27th, Oregon 25th, and about 65,000 dollars in gold.

Both Cariboo and Salmon river mines appear over crowded. Thousands of adventurers are scattering over hitherto unex-plered country, searching for new mining

regions, and meeting with many discouragements. Much suffering is anticipated. Emigration northward is considerably checked by discouraging and conflicting accounts. The very considerable arrivals of gold at Portland and Victoria, however, furnish positive testimony of the existence of some gold diggings.

Meuphis, July 4. At Helena, Ark., there is a band of guerrilias, who threatened the people with cot-ton burning and a general destruction of property. In consideration of these facts, Gen. GREENMAN & TRUE'S NEW SHUTTLE

WABBANTED THE BEST IN THE MARKET. Elias Howe, Jr., and S. H. Roper's Com-

bined Patents. Straight-Line Novements, Original Transverse Shuttle, and Periphery Champ Feed-Wheel.
THESE SEWING MACHINES COMBINE THE most recent improvement, are userly nobeless when in operation, run with the greatest case and rapidity, and are better adapted for gateral purposes and family use than any other. They are not liable to get out of order, are acceedingly simple, and are made daypeasly for the practical utility: they do every variety of sewing, from the finest weren these to the heartest woolen gloods, both tailuring and fine leather work. Any person may learn to operate them in a very short time. The great difficulty with all other old-style Machine is too much complication, requiring as succh constat adjustment, and such an amount of mechanical sid and inseparity to use them to all variage, as it or read them of little comparative value.

But the Sewing Readiness manufactured by Grean man & True are not little to these objections, as a person, on even a moment's examination, will read discover. They will do more and better week than at other Machine ever object to the public, making it most brautiful lock stitch, alike on bath adea. Set for an off-hand specimen of sewing upon any material you will have seen mow it is done.
